Note: the board pads are not designed for mechanical support, it's best to use a wire size that will break before the pad will. Attaching a solid part to the pad with no other support can result in the pad ripped from the board after a crash.

## Flashing port examples

**Male 2.54cm header.**

**Female 2.54cm header.**

**Picoblade connector.**

**Solid wire (24gauge?).**

**CG023 FC with silverxxx firmware on a 110mm brushless quad**
