

Gallery of awesome pictures

Note: the board pads are not designed for mechanical support, it's best to use a wire size that will break before the pad will. Attaching a solid part to the pad with no other support can result in the pad ripped from the board after a crash.

Flashing port examples

Male 2.54cm header.

Female 2.54cm header.

Picoblade connector.

Solid wire (24gauge?).

CG023 FC with silverxxx firmware on a 110mm brushless quad
